22. Chardonnay, Danbury Ridge, Essex			£75	

# The Cock

Hemingford Grey

We are really proud of our 'Wine List' and this is why...

As the largest wine growing area in the world, the Languedoc-Roussillon provides a diversity of terroir (geology, geography and climate) allowing us to source a wide range of wines from this one area. One of the true benefits is that we develop strong connections to this region of France. Regular trips to the area have meant that not only do we have personal attachments to many of our wines and the producers, but we have become experts on this region. As such, we select wines which evince a true love and dedication to winemaking and represent terrific value. We hope you find our approach refreshing.

We have included a small, considered range, called the 'Outsiders', a range of wines from around the world should our Languedoc project not hit the spot.
